

## CLAIMS

We claim:

5           1. A sleeping bag system, comprising:  
a sleeping bag;  
a ground cloth attached to said sleeping bag;  
a canopy attached to said ground cloth; and  
support poles attachable to said canopy for supporting said canopy about said  
10 sleeping bag.

2. The sleeping bag system of Claim 1, wherein said ground cloth is made of water resistant material.

15           3. The sleeping bag system of Claim 1, wherein said ground cloth is made of waterproof material.

4. The sleeping bag system of Claim 1, wherein said sleeping bag is attached to said ground cloth with fasteners.  
20

5. The sleeping bag system of Claim 1, wherein said canopy has a top, a end and a pair of side panels.

6. The sleeping bag system of Claim 1, wherein said canopy has side, top and  
25 end panels made from water resistant materials.

7. The sleeping bag system of Claim 5, wherein said canopy has side, top and end panels made from waterproof materials.

8. The sleeping bag system of Claim 1, wherein said side, top and end panels are interconnected to each other and said ground cloth with one or more zipper fasteners.

5           9. The sleeping bag system of Claim 8, wherein each of said pair of side panels has a window with a rain flap.

10           10. The sleeping bag system of Claim 8, wherein said end panel has a two-way storage compartment.

11. The sleeping bag system of Claim 8, wherein said top panel has a storage compartment affixed thereto to store tent stakes and said poles.

15           12. The sleeping bag system of Claim 1, wherein said support poles are collapsible, durable and lightweight.

20           13. The sleeping bag system of Claim 1, wherein said sleeping bag is attached to said ground cloth in such a fashion as to provide a slot for insertion of an air-mattress or pad.

14. The sleeping bag system of Claim 9, wherein said windows are manufactured with mesh.

25           15. The sleeping bag system of Claim 9, wherein a fastening strap is attached to said side panel to secure said window rain flap in a rolled up position.

16. The sleeping bag system of Claim 1, wherein fastening straps are attached to said ground cloth to secure the sleeping bag system into a rolled compact shape.

17. The sleeping bag system of Claim 1, wherein said canopy is made from camouflage patterned material.
